

HOPE INTO EVERY HOME

What does it take to live with hope amid epic natural disasters, wars, terrorism, nuclear proliferation, political revolutions, chronic global pain and dizzying information overload?

Facing a future with so many unknowns, even our most trusted authorities and commentators can't agree about the next act of the cosmic drama. Where can we find solid information about how to be safe with our loved ones on an earth in crisis? We need what Albert Einstein described as "*holy curiosity*." Such curiosity compels us to discover what lies before us in view of what has happened in the past.

Explore what God will do in the future in light of His past interactions with humanity. Find the dynamic free volume, *The Great Hope*, at www.thegreathope.org.
